

Hello and thank you for your enquiry into our products.

We are a family owned and operated Wellbeing Centre which has a Wholesale business incorporated into it. Our Centre has been operating for 5 years now and we feel we have great experience in the 'alternative' field, meaning we are very discerning with what we purchase for distribution.

It is our aim to supply good quality yet affordable products that will assist people to expand their awareness. We are finding an ever growing demand for products that allow people to explore the alternative fields and if we can help more folk awaken, then the better we all are in the long run.

Our Centre has been undergoing dramatic growth and we have been unable to invest much time into our wholesale side, for which we extend our apologies to our long term clients. The plus to this growth is that we have been able to secure much better prices from our suppliers and we can pass these savings onto you!

We have changed some of the pricing structures as a result of our price reduction and they are as follows...

- All prices include GST.
- We recommend a RRP of 100 – 110% but it is ultimately up to you.
- First order to be paid in full prior to sending.
- 'Special Offer' deals require payment on ordering.
- We use Australia Post and Fastway Couriers... we add no extra charges to freight.
- Where possible, we process orders the next day. If there are any delays we will advise you.

We welcome your queries and hope to be of service to you soon – thank you!

With love and blessings,

Sacred Imports.

Buy ten get one free

Authentic Tibetan woollen beanies, various colours and patterns available.

Himalayan Salt Lamps

Himalayan Salt Crystal Lamps have a similar effect to an ionizer. These Himalayan salt lamps emit negative ions to their surroundings. Negative ions kill bacteria, purify the air, reduce radiation, increase well being & soothe the mind, body & soul. Negative ions are found naturally in nature, before Thunder Storms, at Waterfalls and wherever Nature is most pure.

Complete with Australian Standard light fitting and bulb.

Important Product Note

No two salt lamps or natural salt products will ever be alike. They naturally contain veins, cracks and striations. The colors of the salt crystals will range from light orange to dark red. We cannot guarantee your salt lamps will look like any picture depicted on our site, as no two crystal salt lamps will ever be the same. Weight and size will vary within product styles and we only give approximations based on averages. Due to these variances, we cannot guarantee shape size or color but do we do guarantee our entire salt lamp/salt product collection will be one of a kind. All Salt Lamps come with an Australian standard light fitting and bulb.

Himalayan Table Salt

This is by far the purest salt available on earth and is absolutely uncontaminated with any toxins or pollutants.

This salt from the Himalayas is known as "white gold" because it contains eons of stored sunlight. Together with pure spring water, Himalayan Crystal Salt offers all the natural elements exactly identical to the elements in your body - the very same elements originally found existing in the "primal sea."

- Today's common table salt is poison that has nothing in common with natural salt.
- This Salt Is Over 250 Million Years Old
- Containing all of the 84 elements found in your body
